

Monthly Payment Plans

Care Credit

Care Credit is a human health, wellness, dental, and veterinary credit card you can use to conveniently pay for the care your family needs and wants.

The Care Credit application only takes about 5 minutes, and can be done in the privacy of your own home at CareCredit.com or in our office. The likelihood of acceptance is increased by applying in office, and/or by adding a co-applicant.

Depending on how much you spend, you can receive anywhere from 6-18 months no interest on each Care Credit transaction. You can use your Care Credit card over and over again at any business that accepts Care Credit. There is no need to reapply.

Care Credit is always our first option for financing. However, if you are declined Care Credit or have reached your Care Credit limit, we offer a program called Cross Check.

**You are welcome to use Care Credit for any product or service at our practice. There is a 10% fee to use Care Credit for a Preventative Care Package.*

Cross Check

-OVER-

Everyone approved! No Credit Check!

Cross Check allows you to break your bill up over 4 payments over 90 days. The first check must be for 25% or greater of your total invoice and will be deposited the day you check out. You pick the dates the remaining 3 checks will be deposited, with no more than 30 days between checks and they can go out no farther than 90 days from the first check.

Example:

Pet is picked up on August 1st with a bill of \$400. You will write all four checks for \$100, all dated August 1st. The checks will be deposited on August 1st, September 1st, October 1st, and October 31st.

What to bring:

- Current driver's license*
- 4 bank printed checks*
- Checks must have your PRINTED name, address, check number greater than 1000, account number and routing number*
- Please allow 10-15 extra minutes for us to process your checks*

Rules and Exemptions:

- There is a 5% fee (of your total invoice) to use Cross Check*
- There is a \$200 minimum to use Cross Check*
- There is a 10% fee to use Cross Check for a Preventative Care package*
- All Cross Check checks must be dated for the date of the invoice (the date you check out)*
- No starter checks, temporary checks, money orders, trust account checks, or credit card checks*
- You can only be in one Cross Check program at a time. All payments must be completed before starting a new one.*

Don't have checks? Many banks can print them for you. Just make sure they meet the protocol listed above.
